### BLACK DIAMOND ROUTE.

Favorable Opinion Expected From Sir Thos. Tanager, the English Engineer.

The promoters of the Black Diamond Railroad scheme have received information that Sir Thomas Tanager, the English engineer sent to this country by an English financial syndicate, would recommend that the road be built by his people.

He has departed for London and before starting stated to Colonel Albert E. Boone, the chief promoter, and other prominent men interested in the deal, that he would approve the survey and recommend the investment. This is considered a consummation of the financing.

Colonel Boone has the contracts for building the road, and the favorable report of Sir Thomas Tanager will enable him to commence work the first of next May. The road will extend from Port Royal, S. C., to Columbus, O., penetrating all the coal fields of East Tennessee and Kentucky. It will be 322 miles long, double tracked and cost \$40,000,000.

Sir Thomas Tanager while in this country this summer inspected the road from Columbus to Port Royal, going over the entire route on foot or in private conveyances. He has secured all information relative to the country touched, and will be able to make a comprehensive report. He reserved an expression of opinion until after the trip was completed and he was ready to sail.
